MY ONLY WAY OF UNDERSTANDING TENNIS

BY RAFA NADAL

I started playing tennis as a child in Manacor, on the island of Mallorca. Since then, tennis has been much more than a sport for me. It has been a school of life. After many years competing around the world, I have realized that the true value of success is not only in trophies or titles, but in the discipline, humility, and respect that have accompanied me throughout my career.

One of my greatest purposes is to share these values with the new generations. Through the Rafa Nadal Academy, we work every day to educate young athletes not only to become better players but better people. We teach them to value effort, to understand teamwork even in an individual sport, and to maintain respect for themselves, their opponents, and the game.

It is an international project that brings together students from all over the world, combining education and sport as two pillars of personal development. We believe that high performance is compatible with humanity, that competition can go hand in hand with kindness, and that every training session is also a life lesson.
